EDUCATION

2021 - 2025
SUKKUR IBA UNIVERSITY

- Bachelors of science in computer science

2016 - 2018
ROSHAN TARA SCHOOL GHOTKI

- Intermediate(FSC pre med)

SKILLS

- Web development
- AI/ML
- Database management
- cyber security
- programming languages
- problem solving
- MS office

PROFILE

Highly motivated and skilled Computer Science student with a strong foundation in problem-solving,web development, and AI/ML. Seeking an internship or entry-level position to leverage my technical skills and academic knowledge in a dynamic environment. Eager to contribute to cutting-edge projects and gain practical experience that will further enhance my expertise in software development and data science.

PROJECTS

Note taking app
Currency converter

- Developed a web-based application for creating, editing, and managing notes.
- Implemented features like rich text formatting, tagging, and search functionality.
- Built a real-time currency converter application using public API data.
- Technologies used: Javascript,React, Node.js, Firebase , RestAPI.

Fake news Detection
Pneumonia detection using chest xray

- Created a machine learning model to detect fake news articles.
- Collected and preprocessed a dataset of news articles, and trained using NLP techniques.
- Developed a convolutional neural network (CNN) model to classify chest X-rays for pneumonia detection.
